## Skills

**TECHNICAL:** Python (*Pandas, Numpy, SKLearn, Sci-Py, Matplotlib, Plotly, Statsmodels, NLTK, BeautifulSoup*) | Git | R | Excel | SQL | Tableau | Machine Learning (*Classification, Regression, Clustering, Dimensionality Reduction, NLP*)  
**EXPERIMENTAL:** A/B Testing | Experiment Design | Quantitative Analysis | Statistical Inference

---

## Education

<b>UNIVERSITY OF CALIFORNIA, SAN DIEGO</b>	SAN DIEGO, CA
<b>B.S. Cognitive and Behavioral Neuroscience</b>	DEC 2020
Coursework: <i>Statistics   Data Science in Practice   AI Algorithms   Modeling &amp; Data Analysis   Linear Algebra   Calculus I-III</i>	
Awards and Affiliations: <i>Provost Honors   Data Science Student Society</i>	
<b>AT&amp;T SUMMER LEARNING EXTERNSHIP</b>	REMOTE
<b>Business Acumen for Data Science Certificate</b>	JUL 2020
<b>OHLONE COLLEGE</b>	FREMONT, CA
<b>A.A. Human Development   A.A. Social Sciences</b>	JUN 2018

---

## Experience

<b>UC San Diego (Linguistics Lab)</b>	SAN DIEGO, CA
<b>LEAD RESEARCH ANALYST</b>	DEC 2019 – PRESENT
<ul style="list-style-type: none"><li>• Led team of three in data collection, cleaning, exploration and model-building operations.</li><li>• Implemented automated pipelines in Python, alleviating 20+ hours of weekly duties.</li><li>• Performed statistical tests uncovering language features that impact complexity.</li><li>• <b>Utilized sentiment analysis and topic generative models to identify how subjects learned language.</b></li></ul>	
<b>Facebook</b>	REMOTE
<b>DATA CHALLENGE FINALIST</b>	APR 2020 – AUG 2020
<ul style="list-style-type: none"><li>• Identified metrics that could be used to measure Instagram Story performance and engagement.</li><li>• Collaborated with other finalists to analyze and update Dubai RTA infrastructure.</li><li>• <b>Placed 1st in the final challenge as a result of strengthened skills in SQL and product-sense.</b></li></ul>	
<b>Whova, Inc.</b>	SAN DIEGO, CA
<b>DATA SCIENCE INTERN</b>	OCT 2019 – APR 2020
<ul style="list-style-type: none"><li>• Contributed to productionized models in Python to power targeted advertising service.</li><li>• Identified key metrics and engineered features for classification and similarity models.</li><li>• Analyzed churn account data holistically to identify pain points and solutions.</li><li>• Mobilized development of new app features and post-event reporting for client sponsors.</li><li>• <b>Resulted in 5% increase in reactivated accounts and improved retention.</b></li></ul>	
<b>UC San Diego Health (Neural Engineering Lab)</b>	SAN DIEGO, CA
<b>ASSISTANT RESEARCH ANALYST</b>	JAN 2019 – OCT 2019
<ul style="list-style-type: none"><li>• Capped participants for EEG and Transcranial Magnetic Stimulation.</li><li>• Developed a framework to maximize data pipeline efficiency using parallel processing in MATLAB.</li><li>• Identified neural oscillatory patterns that helped establish baseline brain activity in Python.</li><li>• <b>Findings aided in the development of new personalized therapies to treat ADHD and depression.</b></li></ul>	
<b>Ohlone College</b>	FREMONT, CA
<b>ASSOCIATE RESEARCHER</b>	JAN 2018 – JUN 2018
<ul style="list-style-type: none"><li>• Commissioned by the Office of Student Life to investigate student satisfaction at Ohlone College.</li><li>• Lead analytics team, identified campus pain points, student profiles, and solutions.</li><li>• <b>Resulted in the organization of TEDx conferences and increased professional development events.</b></li></ul>	

---

## Featured Project

**Email Newsletter Summarizer** / [GitHub](#)

Developed a script that will access emails from Medium.com containing the users “Daily Digest” of recommended articles. **Retrieves newsletter articles from email, summarizes articles into seven sentences, and presents the summarizations in a clutter-free webpage that also contains links to the users LinkedIn, Gmail, and other websites.** Provides a tool that allows users to begin their days cleanly, and efficiently.
